

TOOL | COMPENDIUM OF COLLECTIVE IMPACT RESOURCES: ENGAGING COMMUNITY STAKEHOLDERS TO BUILD MOVEMENTS FOR CHANGE

This is the sixth in the Collective Impact Compendium of Resources series that aims to offer a quick and easy reference for you to find key Collective Impact resources in one place. In this edition of the series, we have curated a list of papers, tools and resources which focus on the practice of effective community engagement, and how a movement building lens can accelerate the impact of your collaborative initiative.

USING THIS TOOL WILL HELP YOU:

- **Uncover the relevant papers, tools and resources to understand and build strategies to effectively engage citizens in Collective Impact efforts**
- **Explore the concept of movement building and how this approach could accelerate Collective Impact efforts**
- **Have access to tools which build capacity to implement effective community engagement strategies**

OVERVIEW

Collective Impact efforts are designed to move the needle on complex community issues. The framework consists of five core conditions: agreement on a common agenda; shared measurement; mutually reinforcing activities; continuous communications and investing in backbone infrastructure. A key focus of successful Collective Impact efforts is measuring progress and impact. Successful Collective Impact efforts seek to engage a broad and diverse range of stakeholders. The knowledge and experience of diverse stakeholders creates a base for generating deeper understanding of the elements that are holding this seemingly intractable problem or issue in place.

Community engagement is linked to many of the conditions of the Collective Impact framework. However, many Collective Impact practitioners have interpreted the framework in a way that seeks to only engage traditional or formal community leaders. To adequately understand the complexity of the issue or dilemma to be resolved, includes paying attention to the principles of inclusion and equity. Issues impact different sub-populations in communities in different ways. Understanding how the issue or dilemma is challenging local citizens is key.

This compendium will focus on key articles, tools and resources which have been developed to assist Collective Impact practitioners to evaluate their community change efforts.

The 5 Phases of Collective Impact

Components for Success	Phases I Assess Readiness	Phase II Initiate Action	Phase III Organize for Impact	Phase IV Begin Implementation	Phase V Sustain Action and Impact
Governance & Infrastructure	Convene Community Leaders	Identify champions and form cross-sector Steering Committee (SC) to guide the effort	Determine initial workgroups and plan backbone organization	Launch work groups (WGs) and select backbone organization	Build out the backbone organization, evolve WGs to meet emergent strategy
Strategic Planning	Hold dialogue about issue, community context, and available resources	Map the landscape and use data to make case	Create common agenda, clear problem definition, population level goal	Develop blueprint for implementation and identify quick wins	Refine strategies and mobilize for quick wins
Community Engagement	Determine community readiness; Create a community engagement plan	Begin outreach to community leaders	Incorporate community voice, gain community perspective and input around issue	Engage community more broadly and build public will	Continue engagement and conduct advocacy
Evaluation and Improvement	Determine if there is consensus/urgency to move forward	Analyze baseline data to ID key issues and gaps	Develop high level shared metrics and/or strategies at SC level	Establish shared measures (indicators and approach) at SC and WG levels	Collect, track, and report process (process to learn and improve)

A FINAL NOTE:

This Compendium of Collective Impact resources was developed by the Tamarack Institute team. It is a starting point for emerging and existing Collective Impact leaders. If you have a tool or a resource that has been helpful to your Collective Impact work, contact us at tamarack@tamarackcommunity.ca and we will include that tool in future iterations of this Compendium of resources.
