Community

Goals

- Supporting youth in building financial security with employment while balancing their education
- Expanding access to life skills education for youth as they transition into adulthood
- Access to resources for youth to pursue their interests, gain experiences, and having support in achieving their goals in a safe environment
- Build connections for youth with Elders, Indigenous advocates, and and/or Traditional knowledge
- Create more space for the discussion of mental health affecting youth
- Create and expand support services for youth that are in the LGBTQ2S+ Community
- Create educational opportunities for youth to navigate their physical and mental health needs
- Create access to more alternative methods of medicine to better physical and mental health
