

LEARNING ARC

The Collective Impact: Leading Theory to Action Train the Trainer Session is designed as a comprehensive learning journey. Each activity builds on those that proceed it, helping you to build your Collective Impact knowledge and skill set. You will build a network of colleagues and be inspired to take your Collective Impact efforts to the next level.

Priming the Pump

JANUARY - FEBRUARY 2019

Participate in Tamarack webinars and pre-event learning, receive a resource package to review and come prepared with your questions.

You will learn

- The basics about the Collective Impact Framework and what is needed to implement the framework effectively

You will get

- Access to newly-released Compendiums of Collective Impact
- Invitation to participate in a pre-session webinar to orient you to the workshop

Building your Skills

MARCH 19, 2019

The first day of the workshop will include modules focused on building the learning community; building readiness; the CI framework and its implementation, and the phases of Collective Impact.

You will learn

- How to move an effort from idea to implementation
- Strategies for navigating the phases of collective impact
- New resources for your Collective Impact implementation tool box

You will get

- New ideas, articles, tools and resources for your tool kit
- Engagement with other practitioners to learn from their experiences

Accelerating your Impact

MARCH 20, 2019

The second day of the workshop will include modules focused on taking Collective Impact efforts to scale. This includes a focus on Collective Impact 3.0; developing an effective governance strategy; shared measurement and learning; and practices to foster sustainability.

You will learn

- Strategies for scaling efforts in ways that build movements for change
- Common CI challenges and how to overcome them.
- Additional tools to support the later phase implementation of Collective Impact

You will get

- New ideas, articles, tools and resources for your tool kit
- Engagement with other practitioners to learn from their experiences in advancing efforts

Building the Future

APRIL -DECEMBER 2019

At the completion of the workshop, Tamarack will invite all participants to join the Collective Impact Train the Trainer Community of Practice. Tamarack will host bi-monthly meetings inviting participants to learn, share their practice, tools, resources and questions.

You will learn

- How other communities and practitioners are driving change forward
- How to implement new tools and resources into your practice

You will get

- Connection to practitioners to discover new successes, challenges and promising solutions
- Bi-monthly Communities of Practice
- Opportunities to inform the curriculum for future workshops

Supporting Action

ON-GOING

The field of Collective Impact practice is continually evolving. Tamarack is an active contributor of resources, tools, articles and webinars. As a Collective Impact practitioner, we will invite you to share your learning journey and add to this growing knowledge base for Tamarack's global network of learners.

You will get

- The latest thinking and tools about Collective Impact
- The opportunity to be an active contributor to the growing knowledge base
- To profile of your collective impact work through Tamarack webinars, articles and case studies
