

*A Tamarack Institute Gathering*

Climate Transitions Cohort  
**Q&A Session**

# Gratitude & Land Acknowledgement

We begin this conversation by acknowledging that we are meeting on Indigenous land. As settlers, we are grateful for the opportunity to meet and we thank all the generations of Indigenous peoples who have taken care of this land.

This recognition of the contributions and historic importance of Indigenous peoples must be clearly and overtly connected to our collective commitment to make the promise and the challenge of Truth and Reconciliation real in our communities.

# Check-in

**Introduce yourself in the chat box.**

**Please share your name, organization/affiliation, and where you are calling in from.**

A woman with long dark hair, wearing a vibrant red dress and black heels, is perched on a large, fallen tree trunk in a dense forest. The scene is bathed in the warm, golden light of a setting or rising sun, which creates a lens flare effect behind her. The forest floor is covered with fallen leaves and green moss, and the tall, thin trees of the forest stretch into the background. A large purple triangle is overlaid on the left side of the image, containing the text.

# About the Community Climate Transitions Cohort

# About the Climate Transitions Cohort

A **10-month learning journey** designed for communities to develop and implement community plans for a just and equitable climate transition.

A **group of trailblazing communities** from across Canada will be part of a **learning process** to develop a common vision and common agenda among local stakeholders through a collective impact approach.

**What is collective impact?** Commitment of a group of actors from across society to a common agenda for solving a specific challenge, using a structured form of collaboration.

# What we are offering

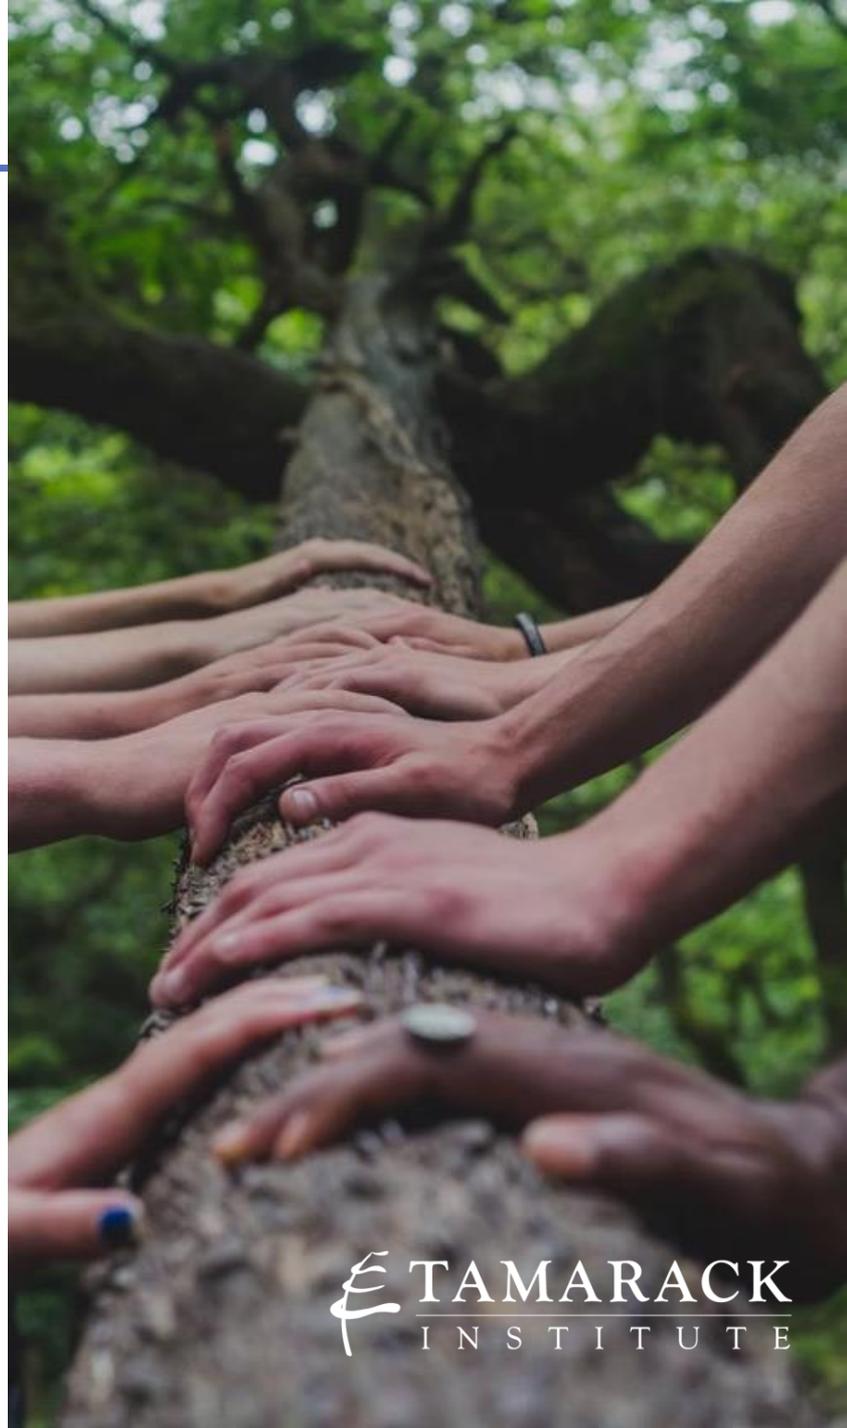

- **Monthly cohort sessions** with guest speakers on a range of topics (plus additional workshops and webinars)
- **6 coaching sessions** with coaches from the Tamarack Learning Centre
- **One-on-one support** from the Community Climate Transitions team
- **Access to leading resources** on developing transition plans through collective impact and community engagement
- **Updates** on the latest news, events and publications on community climate transition

# Who is eligible to participate?

The cohort is open to communities across Canada that are interested in developing a transition plan or updating an existing one, and meet the following criteria:

- A commitment to **centering justice and equity** in a community's climate response
- A commitment to **collective impact** and **community engagement**
- **Having a cross-sector team** will be considered **an asset**, e. g. someone from local government and someone from the community co-leading this work

---

# Objectives

This cohort process aims to support and accelerate local efforts to develop climate transition plans in a way that is adaptive, community-led and participatory.

**Adaptive:** The process is flexible yet structured as it provides an organized platform for participating communities to connect with one another, collaborate and develop solutions tailored to their emergent local needs.

**Community-led:** Communities are leading or co-leading the process in partnership with other local stakeholders (governments, private sector, community orgs, etc).

**Participatory:** Communities are invited to actively learn, engage and build together in a way that cultivates a sense of belonging and shared purpose.

## National-level objectives

- **Build a platform** for communities to learn and collaborate in developing Climate transition plans
- **Inspire communities** to engage in developing solutions to support climate transitions
- **Amplify new narratives** of emergent climate transition pathways

## Local-level objectives

- **Develop and strengthen relationships** that are focused on climate action, equity and community engagement
- **Meaningfully engage diverse community members** in a co-creation process
- **Create a common agenda** for a just local climate transition
- **Support communities** in implementing a common agenda and a common vision

# Content

*We acknowledge that not everyone in the cohort will be following the same timeline as they develop a community plan. Some participants may begin at an earlier or later stage, be on an accelerated or slower timeline, and may move through the stages in a non-linear fashion. The program is designed to support diverse communities at all stages in their journeys.*

Phase	Months	Key content covered
<b>Phase 1:</b> Learning and exploring <b>Mindset:</b> Inspiration 	February – April 2022	<ul style="list-style-type: none"> <li>• The role of communities in climate action &amp; climate justice</li> <li>• Developing a climate plan through an equity lens</li> <li>• Fundamentals of collective impact</li> </ul>
<b>Phase 2:</b> Generating possibilities <b>Mindset:</b> Ideation 	May – July 2022	<ul style="list-style-type: none"> <li>• Collaborative leadership &amp; building a multi-sectoral leadership roundtable</li> <li>• Doing effective community engagement</li> <li>• GHG emissions inventory, assessing climate vulnerability, setting targets</li> <li>• Identifying promising solutions/actions</li> </ul>
<b>Phase 3:</b> Developing <b>Mindset:</b> Engagement 	August – October 2022	<ul style="list-style-type: none"> <li>• Working towards a common vision and agenda (i.e. a community plan)</li> <li>• Considerations for implementing local plans</li> <li>• Evaluating impact</li> </ul>
<b>Phase 4:</b> Wrapping up and looking ahead <b>Mindset:</b> Celebration 	November 2022	<ul style="list-style-type: none"> <li>• Taking stock of progress</li> <li>• Planning next steps</li> </ul>

# Cohort application timeline

Launch Call for Applicants

Cohort launch

February 2022

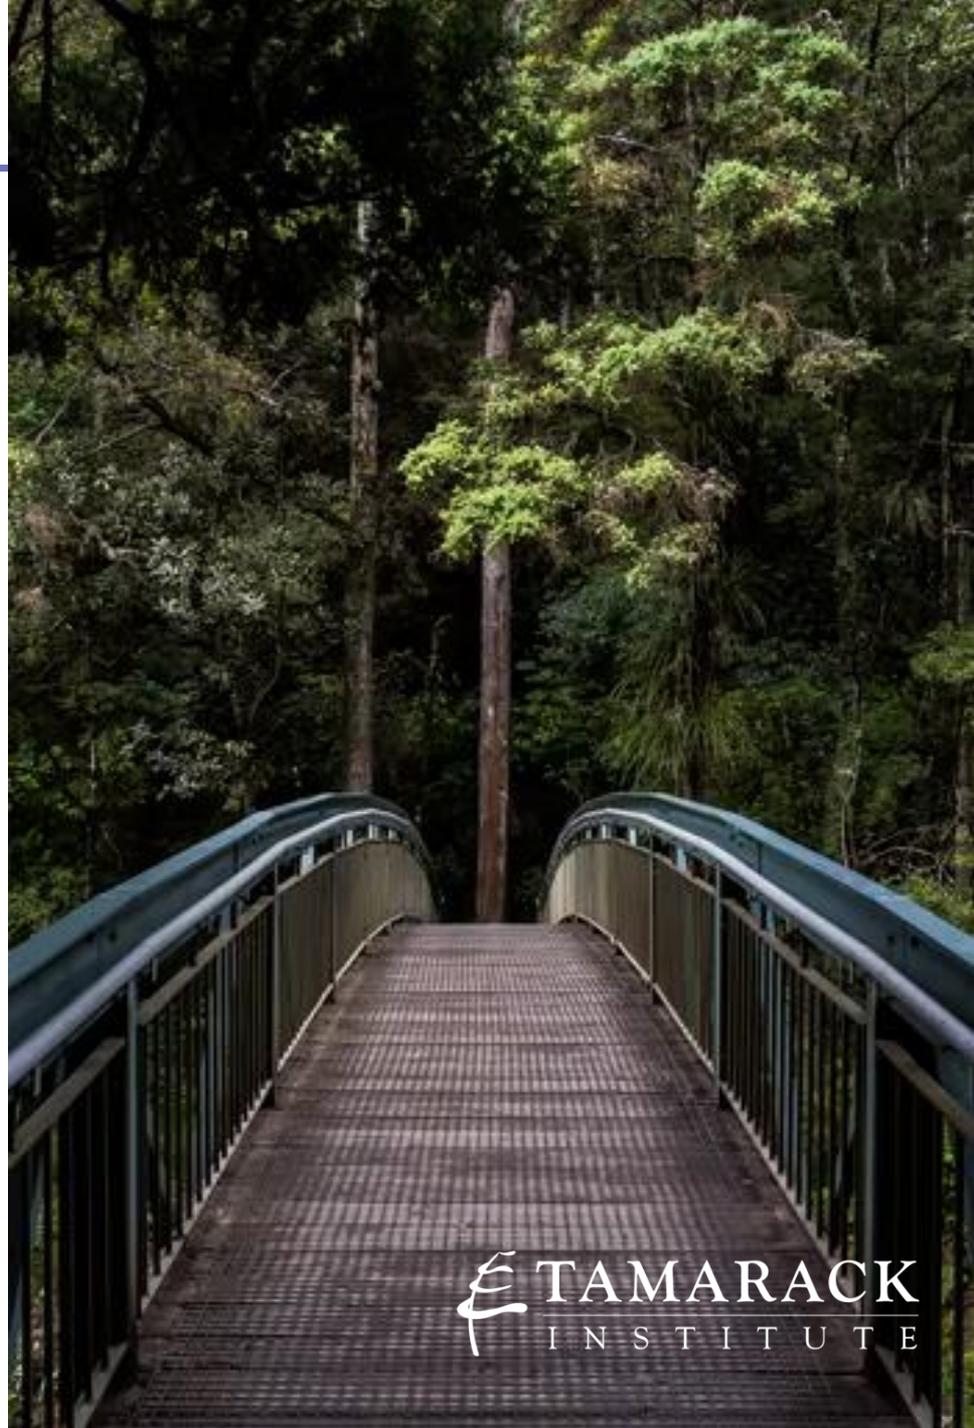

# Next steps

## Call for Applicants

We are inviting communities to submit a short application explaining their interest in participating in the 2022 cohort.

The application process will be open from November 1 – December 13. During this time, Tamarack will also conduct active outreach with prospective communities.

A group of people are having a picnic on a grassy lawn. In the background, there is a body of water and a city skyline with several tall buildings. The scene is set outdoors with trees and a wooden fence. A purple triangle is overlaid on the left side of the image, containing the text.

# A conversation with the Community Climate Transitions team

Questions?

## Upcoming webinar

### Halton Climate Collective:

### A whole-community climate response through collective action

Join us on **December 15 at 12:00 pm ET** to learn how the Halton community has taken their climate response to the next level through shared, collaborative governance.

# Thank You!
